Notice the first part of that Genesis curse on woman.

In **Genesis three** God pronounced a curse because of the original sin mankind had committed and that divine curse had four basic sections:

- and the fourth part was focused on the _____ (**verses seventeen through nineteen**).

Definition: A **curse** is a solemn utterance intended to invoke a _____ to inflict harm or punishment on someone or something.

This curse on woman consisted of two basic components:

- woman's _____ in childbirth
- woman's _____ to a husband's headship

This message is just focused on just the first part of this divine curse on woman found in the first half of **verse sixteen**, "... *I will greatly multiply **your sorrow and your conception; in pain you shall bring forth children...***"

The solution to the stigma brought onto woman from the original first sin is found in:
