Read **Romans 1:16** (see screen)

Paul uses four critical words that are crucial to understanding the essence of this famous verse and understanding the nuts and bolts of Christianity.

The first word is “\_\_\_\_\_.”

That gospel is specifically defined in:

Reference: **I Corinthians 15:1-4; Romans 10:9** (see screen)

**Definition:** The gospel of Christ is the good news (awesome announcement) that Jesus \_\_\_\_\_ for our sins, was \_\_\_\_\_, and then was \_\_\_\_\_ from the dead; and through believing that message about Him someone can receive salvation.

The second word is “\_\_\_\_\_.”

This word is translated from the Greek word “dunamis.”

Our modern words “dynamo, dynamic, and \_\_\_\_\_” are derived from that Greek word.

The third word is “\_\_\_\_\_.”

That word is translated from the Greek word “soteria” and means “deliverance and to \_\_\_\_\_.”

The fourth word is “\_\_\_\_\_.”

There are two components to believing:

- an \_\_\_\_\_ component: when we agree to the basic facts about something.
- a \_\_\_\_\_ component: when we exercise our will and determine to trust what our mind knows to be true.

Example: sitting in a \_\_\_\_\_
